

The logo for 'beads of COURAGE' is centered on a white background. The word 'beads' is written in a playful, rounded font where each letter is a different color: 'b' is purple, 'e' is green, 'a' is orange, and 'd' is blue. The 's' is a long, wavy orange line. Below 'beads' is the word 'of' in a smaller, grey, lowercase sans-serif font. To the right of 'of' is the word 'COURAGE' in a large, bold, grey, uppercase sans-serif font, followed by a registered trademark symbol (®). Two decorative beaded strings are positioned diagonally, one in the top right and one in the bottom left. Each string consists of several beads in various colors (purple, green, orange, blue, grey) on a thin black line.

ICE BREAKER

Why Beads?

- Significance
- Protective & Healing Powers
- Status
- Every-day uses
- Value

Guidelines for Glass Beads

- Do not use reduction glass, frits, powders or enamels that leave a metallic surface on the beads.
- Any size or shape is acceptable.
- Preferred hole size is 3/32" and larger (1/16" holes are accepted).
- The inside of the bead should be free of bead release.
- No sharp corners, sharp edges on the bead holes, cracks or protrusions that would easily break off, including hearts with long, delicate tails.
- Beads must be fully kiln annealed.
- Please remember that these beads are worn and handled by children and should be sturdy enough to stand up to wear and tear.

Guidelines for Polymer Clay Beads

- Any size or shape is acceptable.
 - We like bright colors!
 - Preferred hole size is 3/32
 - No sharp corners or edges or, cracks or protrusions that would easily break off.
 - Please remember that these beads are worn and handled by children and should be sturdy enough to stand up to wear and tear.
 - Print and fill out [bead donation form](#) and send with your beads. Please do not send or directly deliver your beads to member hospitals. All beads must be inspected, logged and packaged at Beads of Courage headquarters.
