What is PTP?

PTP is short for Pediatric Trauma Program. Pediatric Trauma is the leading cause of death among children. So what does the Pediatric Trauma Program do? The Pediatric Trauma Program works to reduce the amount of children going through trauma and saving lives. They do this by reaching out to hospitals and donating to fund for research, equipment, and education for our doctors. By donating to PTP we are helping our first responders, nurses and doctors to be fully equipped to aid children facing these problems.

You can assign days for any PTP events you have whether it’d be a service project or a fundraising event and mash them up all in one week!
