

TECHNOLOGY SAFEKEY

Technology SafeKey

is an opportunity provided by the California-Nevada-Hawaii Key Club District to help give us leaders the tools to understand the **effects of technology** and the importance of **online safety**. This is a program created by the members for the members, so that we can all become better informed on how to act appropriately online. Technology SafeKEY provides many resources to prevent cyberbullying, enhance leadership skills, and inspire the community. When implemented, this program can impact many lives, but it all starts with your initiative. Let's take the step to *bee* the solution!

Mission

- Educate the youth about online safety
- Provide information on hazards of unsafe browsing
- Teach students how to safely utilize the internet

How to be Safe

- Never disclose any personal information publicly
- Be online with people you know in real life
- Report any incidents of cyberbullying

Importance

- To protect our identity and maintain our privacy
- To prevent any harmful encounters from occurring
- To stop cyberbullying

Cyberbullying

- The act of hurting another person emotionally (and possibly provoking physical harm) by the use of technology as a medium
